► **Intake Questionnaire**

PLEASE DISCUSS THE FOLLOWING WITH ALL NEW CLIENTS AT YOUR FIRST MEETING

• **Why did you respond to our advertisement?**

- a) What were you curious about?
- b) What do you think we do?
- c) Why would you be interested in that?
- d) Ideally, what would you like us to do for you?
- e) Why is that important?
- f) How would it change your life?

• **Let me start out by giving you our definition of fitness.**

- a) Experiencing abundant physical health.
- b) Absence of pain, discomfort, illness, and disease.
- c) Experiencing vitality and high energy, sufficient to enable one to do what one wants.
- d) Looking attractive and fit, proud of one's appearance.
- e) Capable of living a long, healthy life.
- f) Able to participate in sports and active recreational activities.
- g) Having a healthy emotional and mental outlook fostered by the foundation of feeling good.

Do you agree with this definition?

Is there anything you would add or delete?

• **What is the current state of your fitness?**

- a) On a scale of 0-10 with 0 being barely alive and 10 being totally fit, how do you rate your fitness?
- b) What illnesses or medical conditions do you have?
- c) How is your energy level?
- d) How would you rate the quality of your nutritional intake?
- e) Do you feel refreshed and energized after sleep?
- f) Is your sex life fulfilling? *(Don't ask this of clients of the opposite sex as it may be misconstrued.)*
- g) What areas of your personal fitness would you like to improve?
- h) What specific thing would you like to change?
What else?
What else?

- i) If you could improve or change all these things, what would it mean to you?
- j) How would it impact your feelings of self worth?
- k) Do you think you deserve to be fulfilled in this area of your life?

• **What is your current fitness program?**

- a) Exercises:
- b) Nutrition and supplementation:
- c) What do you know about how to improve your conditioning?

• **How well is your current fitness program working for you?**

- a) Why isn't it working?
- b) Are you willing to make some changes?
- c) Do you care enough about your own well-being to make it a priority?

• **Aside from financial cost, is there anything that would stop you from embarking on a fitness program?**

(Overcome all non-cost objections before proceeding.)

• **If you had everything you wanted in life except for good health, would that be satisfactory?**

- a) How much do you pay for medical insurance?
- b) How much do you pay for doctor bills?
- c) Given the expensive cost of health care after one gets sick, doesn't it make sense to you to spend a little money to prevent health problems?
- d) How much is your health worth?

• **If there were an affordable program that could give you everything you want in the way of health and fitness, would you do it?**

When? _____ *(If they are not willing to act now, you should terminate interview at this point and ask them to come back when they are ready to make a change.)*

▶ **Intake Questionnaire**

PLEASE DISCUSS THE FOLLOWING WITH ALL NEW CLIENTS AT YOUR FIRST MEETING

Okay (Name), let me tell you a little about my experience and my personal philosophy of fitness. In working with clients, I like to focus on... (expand). I have lots of experience in... (expand on your areas of expertise). Most of my clients are able to achieve their goals because... (expand on your motivational skills).

Another reason for my high success rate is that I confine my practice to only those individuals who are really serious about improving their fitness. Are you? (Answer.)

Okay (Name), the next step is to set up an introductory session so that we can get a feel for how effectively we can work together. The session will last for forty-five minutes and the cost is just \$.

At the end of the introductory session, we'll make a decision as to whether you should become my regular client or not. If the decision is "no" we'll just part as friends. If it's "yes," I'll ask you to commit to a series of sessions and we'll carefully define your goals and make sure that you reach them. Does that sound fair to you? (Yes.)

Good. What time of the day works best for you for the sample session... morning, afternoon, or evening? (Answer) Okay, I have two time slots open this week. (Tuesday at one o'clock or Wednesday at two o'clock) Which is better for you? (Choice.) Great, then I'll see you at (time). (While shaking hands enthusiastically...) It's been a pleasure meeting you.

Always consult your doctor concerning your health, diet, and physical activity.

PAR-Q and YOU

(A Questionnaire for People Aged 15 to 69)

Regular physical activity is fun and healthy, and increasingly more people are starting to become more active every day. Being more active is very safe for most people. However, some people should check with their doctor before they start becoming much more physically active.

If you are planning to become much more physically active than you are now, start by answering the seven questions in the box below. If you are between the ages of 15 to 69, the Par-Q will tell you if you should check with your doctor before you start. If you are over 69 years of age, and you are not used to being very active, check with your doctor.

Common sense is your best guide when you answer these questions. Please read the questions carefully and answer each one honestly. Check YES or NO.

YES	NO	
<input type="checkbox"/>	<input type="checkbox"/>	1. Has your doctor ever said that you have a heart condition and that you should only do physical activity recommended by a doctor?
<input type="checkbox"/>	<input type="checkbox"/>	2. Do you feel pain in your chest when you do physical activity?
<input type="checkbox"/>	<input type="checkbox"/>	3. In the past month, have you had chest pain when you are not doing physical activity?
<input type="checkbox"/>	<input type="checkbox"/>	4. Do you lose your balance because of dizziness or do you ever lose consciousness?
<input type="checkbox"/>	<input type="checkbox"/>	5. Do you have a bone or joint problem (for example, back, neck, knee, or hip) that could be made worse by a change in your physical activity?
<input type="checkbox"/>	<input type="checkbox"/>	6. Is your doctor currently prescribing drugs (for example, water pills) for your blood pressure or heart condition?
<input type="checkbox"/>	<input type="checkbox"/>	7. Do you know <u>any other reason</u> why you should not do physical activity?

**if
you
answered**

YES to one or more questions

Talk with your doctor by phone or in person BEFORE you start becoming much more physically active or BEFORE you have a fitness appraisal. Tell your doctor about the PAR-Q and which questions you answered YES.

- You may be able to do any activity you want—as long as you start slowly and build up gradually. Or, you may need to restrict your activities to those which are safe for you. Talk with your doctor about the kinds of activities you wish to participate in and follow his/her advice.
- Find out which community programs are safe and helpful to you.

NO to all questions

If you answered NO honestly to all PAR-Q questions, you can be reasonably sure that you can:

- start becoming much more physically active – begin slowly and build up gradually. This is the safest and easiest way to go.
- take part in a fitness appraisal – this is an excellent way to determine your basic fitness so that you can plan the best way for you to live actively. It is also highly recommended that you have your blood pressure evaluated. If your reading is over 144/94, talk with your doctor before you start becoming much more physically active.

DELAY BECOMING MUCH MORE ACTIVE:

- If you are not feeling well because of a temporary illness such as a cold or a fever – wait until you feel better; **or**
- If you are or may be pregnant – talk to your doctor before you start becoming more active.

PLEASE NOTE: If your health changes so that you then answer YES to any of the above questions, tell your fitness or health professional. Ask whether you should change your physical activity plan.

Informed use of the PAR-Q: The Canadian Society for Exercise Physiology, Health Canada, and their agents assume no liability for persons who undertake physical activity, and if in doubt after completion of this questionnaire, consult your doctor prior to physical activity.

NOTE: If the PAR-Q is being given to a person before he or she participates in a physical activity program or a fitness appraisal, this section may be used for legal or administrative purposes.

“I have read, understood and completed this questionnaire. Any questions I had were answered to my full satisfaction.”

NAME: _____

 or GUARDIAN (for participants under the age of majority)

WITNESS: _____

► Informed Consent

PLEASE FILL OUT ALL INFORMATION REQUESTED BELOW

I, (print name) _____, give my consent to participate in the physical fitness evaluation program conducted by _____.

BENEFITS

Participation in a regular program of physical activity has been shown to produce positive changes in a number of organ systems. These changes include increased work capacity, improved cardiovascular efficiency, and increased muscular strength, flexibility, power and endurance.

RISKS

I recognize that exercise carries some risk to the musculoskeletal system (sprains, strains) and the cardiorespiratory system (dizziness, discomfort in breathing, heart attack). I hereby certify that I know of no medical problem (except those noted below) that would increase my risk of illness and injury as a result of participation in a regular exercise program.

TESTING AND EVALUATION RESULTS

I understand that I will undergo initial testing to determine my current physical fitness status. The testing will consist of completing this health inventory, taking a step test or bicycle ergometer test for cardiovascular fitness, and being tested for muscular fitness and body composition.

I further understand that such screening is intended to provide _____ with essential information used in the development of individual fitness programs. I understand that my individual results will be made available only to me. I also understand that the testing is not intended to replace any other medical test or the services of my physician. I will be provided a copy of all test results. I may share the results with whomever I please, including my personal physician. By signing this consent form I understand that I am personally responsible for my actions during my tenure at _____, and that I waive the responsibility of this center if I should incur any injury as a result of my negligence.

▶ Letter Writing

LETTERS OF INTRODUCTION

A professional letter written to a prospect may be one of the single most important marketing strategies you can develop. Even if prospects don't read flyers, or answer all of their phone messages immediately, most people read their mail every day. That letter may convince them to make that call that they have thought about, but have not acted on yet.

A sample letter would read something like this:

Dear (Name),

In response to your recent inquiry about personal training, I would like to tell you a bit about my professional qualifications.

I'm certified by The International Sports Sciences Association as a Certified Fitness Trainer. This certification is the most prestigious in the industry and it qualifies me to work with virtually any individual wishing to improve their fitness.

I've been a trainer since (Year) and have worked with more than (number) clients in my career. I have abundant in-depth experience with virtually every form of exercise but most of my clients say that my greatest asset is my ability to motivate and inspire people.

I invite you to call me at (phone number) any morning between 9 A.M. and 10 A.M. so we can discuss your fitness objectives and see if I may be of service to you.

Sincerely,

John Q. Trainer

▶ **Writing Referral Cards**

REFERRAL CARDS

Many doctors and allied health practitioners like to do business (i.e.: patient referrals) through referral cards. These are printed pieces that give brief descriptions of the services that are going to take place. If these professionals are familiar with your work, and are willing to refer, then this card may be ideal for them to give to patients who may wish to work with you when they have completed their initial health care.
